## OKLAHOMA STATE TREASURER

February 28, 2014

To the People of Oklahoma:

I am pleased to issue the January monthly investment performance report for the Office of the State Treasurer. I trust you will find it thorough and in keeping with my commitment to provide full and complete disclosure of all activities within my office. As always, my staff and I are available to answer any questions you might have.

### Market Conditions

Treasury yields experienced turbulence and declined in January as investors flocked to safe fixed income securities. The benchmark 10-year Treasury began the year at 3.04%, a yield high since July of 2011, but closed the month at 2.67%. The 30-year Treasury ended January at 3.59%. One notable current characteristic of the market is the exceptional steepness of yield curves in the 10 to 30-year maturity range. The Dow Jones industrial average fell 5.3% to close at 15,698, which was the worst start to a year since 2009. The S&P 500-stock index fell 3.6% to 1,782 and the Nasdaq dropped 2% to 4,103. The Federal Open Market Committee (FOMC) tapered its asset purchases for the second consecutive meeting by \$10 billion, and is now at a pace of \$65 billion in monthly purchases. It was also the last meeting for Ben Bernanke's eight year tenure as Fed Chairman. On January 6 the Senate voted to confirm Janet Yellen in a 56-26 vote. Ms. Yellen will preside over her first FOMC meeting in March. The transition to the new Fed Chairwoman is viewed as seamless, keeping monetary policy consistent.

### Economic Developments

The unemployment rate declined to 6.7% in December from 7.0% in November. The decrease was driven by a drop in labor force participation, which fell to 62.8% from 63%. A scanty 74,000 jobs were added in December, which has been attributed to a sharp slowdown across private sector industries. In addition, the harsh winter weather may have affected labor force participation and additional economic indicators. The average number of jobs added in 2013 was 182,000, just shy of the 2012 average of 183,000.

The Conference Board reported its December consumer confidence readings increased 6.1 points to a seasonally adjusted 78.1. November's index reading was also updated, reflecting current and future expectations, from 70.4 to 79.4. The Consumer Price Index (CPI) was up 0.3% for December exhibiting the largest single-month gain in consumer prices since last June. The increase was primary due to a 2.1% rise in energy prices. The CPI advanced 1.7% during 2013 and Core CPI finished the year higher by 1.4%. The Producer Price Index (PPI) rose by a seasonally adjusted 0.4% in December, after falling for the past two months, bringing its year-over-year gain to 1.2%. Core producer prices, excluding food and energy, were up 0.3% on a monthly basis and up 1.4% over the trailing twelve months. The headline figure was bolstered by gasoline prices increasing by 2.2% and heating oil by 6.4%.

December Retail sales report revealed an increase of 0.2%, despite a weakening in auto sales. Core sales, without autos, improved from 0.4% to 0.7% for the month. The Census Bureau estimates retail sales were at a seasonally adjusted \$431.9 billion, up 4.1% from a year earlier.

There were strong sales for the month at clothing retailers, and grocery stores, but sales declined at car dealers, electronics and appliance retailers and department stores.

The National Association of Realtors released its report on existing home sales which saw sales advance 1.0% in December. This was the first upswing since July 2013. Existing home sales were up approximately 9% in 2013 and hit the highest level of sales since 2006. The median home price is up 9.9% over the trailing twelve months to \$198,000, along with rising borrowing costs.

The Commerce Department reported that gross domestic product (GDP) grew at a seasonally adjusted annual rate of 3.2% in the fourth quarter. It had been since 2003 since GDP returned as much growth as reflected in the last six months of 2013. Fourth quarter growth has been attributed to an upturn in consumer spending, which grew 3.3%, the fastest pace in three years. Consumer spending accounts for almost two-thirds of economic activity.

#### Portfolio Commentary: Performance, Diversification, and Strategy

Yield on the Treasurer's portfolio was 1.83% in January and the weighted average maturity was 1,116 days. The year-to-date monthly average investable base was \$4.137 billion. Portfolio diversification continues to be sound. U.S. Treasury Inflation-Protected Securities represented 1% of holdings, and U.S. government sponsored enterprises accounted for approximately 43% of the portfolio. Mortgage-backed securities were 40%, municipal bonds were 1% and Certificates of Deposit represented 3% of assets. Money market mutual funds and commercial paper sweep were 11%, and the allocable portion of sales and use tax to General Revenue collected by the Oklahoma Tax Commission was 3%. State Bond Issues (at 1%) and foreign bonds (at less than 1%) made up the balance of funds invested. In keeping with the State's statutory investment objectives, the portfolio strategy continues to seek safety, liquidity, and return on investment, in that order. Based on challenging and potentially volatile market conditions, portfolio strategy consists of a combination of laddered maturities and market observation for investment opportunities that will maximize income in a secure environment.

#### Collateralization

All funds under the control of this office requiring collateralization were secured at rates ranging from 102% to 110%, depending on the type of investment.

#### Payments, Fees, and Commissions

All securities were purchased or sold on a net basis utilizing competitive bidding where practicable, with no additional fees or commissions known to the State Treasurer. Bank fees and mutual fund operating expenses are detailed in the attached pages, as is the earnings split between the Treasurer and the master custodian bank on securities lending income.

#### Total Funds Invested

Funds available for investment, at cost basis, include the State Treasurer's investments at \$4,088,216,957 and State Agency balances in OK Invest at \$2,443,867,824 for a total of \$6,532,084,781.

# Explanation of Performance Comparison January 31, 2014

The following page presents market rates of return on the Securities portion of the General Account and of the State's aggregated State Agency Accounts. The figures, which are dollar- and time-weighted, where appropriate, are calculated using the percentage change in market value (inclusive of accrued income) from the end of the prior month to the end of the reporting month. To ensure the integrity of the data, this information is provided by the Treasurer's custodian bank acting in its capacity as an external third party. As such, performance measurement is presently confined to those investments which are custodied at J. P. Morgan Chase & Co.

The Treasurer's office is trying to develop a method to report rates of return on all investment instruments in the State's portfolio. This is in an effort to report return data in a manner recommended on September 15, 1994, by the Working Group of the Cash Management and Investment Oversight Commission. However, there are technical and conceptual challenges to expanding performance measurement to other portions of the portfolio. Attempting to apply market-base pricing calculations to instruments which do not trade, such as Certificates of Deposit, presents difficulty which is both conceptual and technical in nature.

Benchmark data is also provided on the following page.

**NOTE:** Pursuant to Oklahoma State Statute Title 62, Section 89.7, all known fees are to be reported. The money market mutual fund fees reported above are shown at the contracted rate. Due to the current low interest rate environment, a portion of these fees have been voluntarily waived by the provider. An adjustment to actual fees will be presented in the Annual Report.

The State Treasurer participates in a Securitiet Lending Program with J. P. Morgan Chase & Co. acting as lending agent. J. P. Morgan retains 15% of the revenues generated as compensation for services. Its share for the month was \$7,009.07. Pursuant to Oklahoma State Statute Title 62 Section 90, the State Treasurer retains the first \$450,000 of securities lending revenues in a revolving fund. These funds are used to pay custody and other banking fees. Any revenue not needed for this purpose is deposited to the General Fund.
